FOR IMMEDIATE RELEASE**ICP DAS USA, Inc. Introduces KingSCADA Software**

Harbor City, CA—October 14 2011 – [KingSCADA](#) is PC Based SCADA software by Wellintech that was specifically designed for large-scale industrial projects. KingSCADA is widely used in many industries, such as Water, Power, Machinery, Wind Turbine, Coalmine, Environmental Protection, and Chemical. KingSCADA utilizes the “Model” concept which uses reusable model technology that can reduce workloads by 50% to 70%. KingSCADA helps you to reduce costs and increase productivity.

[ICP DAS USA](#) is a cost effective leader in the US industrial market. They provide flexible, easy to use solutions that provide a competitive price to performance ratio and cater to the latest industrial trends. We provide a variety of products with modular solutions for any scale application or project.

[KingSCADA](#) is a powerful graphical display platform which provides abundant graphics libraries. KingSCADA supports Real-time fault diagnosis, block based data acquisition, flexible and scalable network deployment, and convenient web publishing. [KingSCADA](#) supports multiple language switching in Runtime and also supports unlimited screen zooming. We have a large [training section](#) on our website with tutorial videos and PDF documentation that show how to create projects and graphics, connect with PLC's and I/O and much more. Technical support is provided from our office in Southern California.
