*Setting the Standard for Automation™*

# from the **ultimate** conference

## Solutions Provider Showcase—Your Automation and Control Solutions Resource

Open all-day, the Solutions Provider Showcase will grant you exclusive access to the world's leading automation suppliers of solutions, technologies, and applications. Take advantage of the intimate setting and enjoy valuable face-to-face interaction with product experts, discuss and solve work-related problems that can help improve plant performance, or find out the latest in technical innovations.

### Did you know?

The Solutions Provider Showcase is a two-way exchange of information. End users can learn about how technology is being used while suppliers will have a chance to meet with knowledgeable end users for input on their needs relative to new products. Use promo code **P12349B** when you register for the Solutions Provider Showcase and get in for FREE!

## Fun, Prizes, and Networking!

Conduct business and have some fun while you're at it! Take advantage of attending both of the networking receptions held during ISA Automation Week. The opening night reception will feature light hors d'oeuvres, beverages, and plenty of opportunities to mingle with vendors, peers, and speakers. Then, kick things up a notch by participating in the raffle game during Wednesday night's themed party reception. You'll continue to learn more about vendors' products, and by visiting participating game supporters, you can enter to win some really cool prizes!

### Did you know?

Last year's Mardi Gras reception featured NASCAR® driver Jennifer Jo Cobb! She was onsite to meet and greet all attendees and one lucky person walked away with a NASCAR race package courtesy of ISA and Jennifer Jo Cobb Racing.

## Earn PDH's While You Learn

You will earn up to 13.5 Professional Development Hours when you attend technical conference sessions and workshops. Stay certified, expand your professional development, and document your learning experience while you grow your skills and abilities.

### Did you know?

Approximately thirty U.S. states mandate Professional Development Hours to maintain P.E. licensure, each with varying requirements. For example, Texas P.E.s are required to earn 15 PDHs each year.

Registration is at
