Featured Product: WinCON Windows CE PAC = PLC + PC!

W-8731: \$1455.00

Whether you are seeking a stable **PLC** platform to implement IEC-1131 based programming (**ladder logic, flow chart, structured text, sequential function chart, function block, or instruction list**), or discreet embedded control via **C, VB, or any .Net** language, ICP DAS offers a programmable automation control platform for you!

WinCon Features:

- **Scalability:** Small projects can evolve into large projects using the same hardware and software..
- **Powerful integrations:** from Modbus RTU/TCP, SCADA applications, OPC, amongst other platforms to complete a flexible and high quality industrial control infrastructure.
- **Extensive I/O selection:** Analog, Digital, Relay, Counter, Motion Modules.
- **Safety** with Windows CE.NET
- **Redundancy capability:** By enabling master & slave configurations.
- **Communication Ports:** Ethernet, RS232, RS485
- **USB Ports:** allows connection to a printer
- **VGA Port:** For monitors and Touch Screens (ELO & 3M drivers supported).

Special Promotional Pricing for May 2007

USB to RS-232/422/485 Converter

I-7561: \$115.00

ICP DAS USA is proud to announce a special **promotional** offer to all recipients of our bi-weekly mailer! This month, we will be offering our [I-7561 USB to RS-232/422/485 Converter](#) at a reduced cost. This offer is extended to ICP DAS clientele*. For more information, be sure to visit [our web site](#) today! Be sure to act now; as pricing is set for a limited time only!

I-7561 Features:

- Allows the transfer of serial data over USB
- High Speed 115.2 KB/s transmission rate.
- Contains a **"Self Tuner"** Chip that auto-tunes the baud rate and data format to the RS-485 network
- Derives power from the USB port-- so does not need a power adapter.
- True "Plug and Play" device: No dip switch is needed to configure this module.
- Can bring up to 256 RS 485 devices on the same RS 485 bus. (Traditional converters only bring up 32 or 128 devices.)
- [I-7561 page](#)

*Offer not valid for resellers and distributors.

Do You Have an Application Story to Share with Us?

They are downloadable in .PDF format for your convenience! [Click here](#) to see a list of many of our long time, satisfied customers.

Featured Application Story WinCON Batch Production HMI

HMI for a Production Plant:

- "Recipes" are programmed by user for each batch number
- ICP DAS USA modules can measure analog levels of bins or tanks to ensure that it matches the *recipe*.
- ICP DAS USA controllers *control and determine the speed* of the conveyor belt which is different for each recipe.
- *Counter* keeps track of the amount of units produced.
- *Safe value stops production* in case of failure or connectivity.
- Operation can be monitored from a local interface or remotely through the Web.
- A secure application could require *login* procedures.
- Our WinCON can *print reports* to a local or network printer, or store information in the database.
- Programmers can generate reports which can be later graphed by other software.
- Time and date settings are used to measure efficiency and productivity.
