## Industrial Converters & Gateways

### Industrial Control and Data Acquisition

**I-7520: RS-232 to RS-485 Converter** with auto tuning function. Supports a maximum of 256 modules in a single RS-485 network without using a repeater. Supports up to 2048 modules when using repeaters.

**I-7561: Windows Vista/XP & Linux USB to RS-232/422/485 Converter** is a cost effective solution for transfer of serial data over USB. Installation is Plug & Play.

**I-7540D: CAN to Ethernet Gateway** is a solution that enables CAN networks to be coupled together over the Internet/Ethernet.

**I-7243D: DeviceNet Master / Modbus TCP Server Gateway** is a solution that provides a communication protocol transfers the DeviceNet and Modbus/TCP protocol

**I-7550: PROFIBUS to RS-232/422/485 Converter** is specially designed for the slave device of PROFIBUS DP protocol. It offers RS-232, RS-422, and RS-485: three ways of communication.

**I-7188E2 2 Serial Ports to Ethernet Converter / Intelligent Controller** can be used as a serial to Ethernet Converter; plus, it's a Controller.

**I-7188E5: 5 Serial Ports to Ethernet Converter / Intelligent Controller** can be used as a serial to Ethernet Converter; plus, it's a Controller.

**I-7188E8: 8 Serial Ports to Ethernet Converter / Intelligent Controller** can be used as a serial to Ethernet Converter; plus, it's a Controller.

## FAQ of the Week

**Q:** How many PCs can be connected to one I-7188E / I-8000E device?

**A:** It depends on how many serial ports are on the I-7188E / I-8000E and how many serial ports of the I-7188E / I-8000E each PC are connected to it. 7188E/8000E has 32 sockets totally and it reserves some sockets for

## New Videos

**EZ Data Logger Tutorial**

**EZ Data Logger** is a FREE data logging application that can be applied to remote I/O systems. Users can quickly and easily configure data logging applications WITHOUT programming skills. It's all **drag and drop** and **point and click!!** [Click here to learn](#)

## Special Promotional Pricing

May & June 2008

listening.

## Products

**DCON Utility Tutorial**

**DCON Utility** is a FREE tool for searching the network, configuring and testing ICP DAS I/O modules. [Click here](#) to learn how to use it to configure our remote I/O Modules.

**ICP DAS Company Presentation**

**ICP DAS** was founded in 1993 and is dedicated to developing cutting edge Industrial, Data Acquisition Systems and Intelligent Communication products. [Click here](#) to see our new company presentation video.

**I-7188XC Controller Video**

This system uses our Expandable Embedded Controller, programmable in C Language. [Click here](#) to see how **I-7188XC** offers the ultimate in modern cost effective control!

**I-7550** enables the integration of systems such as serial I/O devices, electronic scales, operator terminals, barcode readers and other automation devices which use an RS-232/RS-485/RS-422 interface into PROFIBUS DP applications. **I-7550** a converter that is specially designed for the slave device of PROFIBUS DP protocol.

- 16-Bit 80 Mhz Microprocessor inside
- Siemens SPC3 PROFIBUS Controller
- Supports PROFIBUS DP-V0 Slave
- PROFIBUS Transmission Rate Detected Automatically
- Built-in Watchdog
- Built-in Self-Tuner ASIC Controller on RS-422/485 port
- Flash: 512 KB
- SRAM: 512 KB
- EEPROM: 16KB
- COM 1: RS-232(3 wires)/RS-422/RS-485
- [Click Here for the User's Manual](#)
