Summer 2008 New Products

The Latest and Greatest in Data Acquisition and Industrial Control

ET-7060 Web Based Ethernet I/O Module with 6 Channel Power Relay Output and 6 Channel Isolated Digital Input allows configuration, I/O monitoring and I/O control by simply using a regular web browser.

uP-4500: Mini PAC with GPRS/GPS is a cost effective programmable automation controller with 900/1800/1900 MHz GPRS and GPS with Atmel Antaris 4 ATR0635 Chip.

WP-8041: Standard WinPAC-8000 Controller with 8 Slots is a cost effective solution with hard real-time capability, small core size, fast boot speed, interrupt handling, achievable deterministic control.

WP-8141: Standard WinPAC-8000 Controller with 1 Slot is a top of the line Programmable Automation Controller solution with Windows CE 5.0

WP-8441: Standard WinPAC-8000 Controller with 4 Slots has CE.net 5.0, Remote Maintenance via FTP Server and VCEP Software, and Built-In OPC Server.

WP-8841: Standard WinPAC-8000 Controller with 8 Slots allows Remote Maintenance via FTP Server and VCEP Software. Users can upgrade their controller from WinCon-8000 to WinPAC-8000, still keep most of their old applications.

USB-87P8: I/O Expansion Unit is an intelligent I/O expansion unit. It features a USB communication interface, hot swap, and can be expanded with any i-87K series modules.

ZB-2570: Ethernet / RS-485 / RS-232 to ZigBee Converter (Host): Full compliant with 2.4G IEEE802.15.4 / ZigBee specifications. Wireless transmission range is up to 100M (Line of sight). ZB series are din rail mountable.

FAQ of the Week

Q: Where can I find your new products on the website?

A: Click on the **New Products** category and see the list of all of our new products. We recently added a new category to our website called **New Products**. [Click Here](#) to go to our new products section and check out the latest and

New Videos

EZ Data Logger Tutorial

EZ Data Logger is a FREE data logging application that can be applied to remote I/O systems. Users can quickly and easily configure data logging applications WITHOUT programming skills. It's all **drag and drop** and **point and click!!** [Click here](#) to learn
